For coastal applications please remember that we strongly suggest that the canopy, panel and base be upgraded to 3CR12 because the powder-coating on mild steel cannot provide any long-lasting protection. An anti-condensation heater is also compulsory as the alternator warranty is void without it, in coastal regions.

## GENERATOR

Vol 3, No. 6, June 2019

### JUNE PRICES

We are pleased to confirm that we have included a few new components on the June Pricelist. We have brought back FAW and now also offer a variety of Kirloskar options. We have also included ABB panel prices and sync panels. We trust you will find this helpful but urge you to contact us if you need anything else.

### LEAD TIME

We are pleased to confirm that our lead time has improved considerably. The current lead time is 15-20 working days from date of deposit received. That said certain stock is still limited so it is best to check availability prior to placing the order.

*Thank You*

for your patience during the last few months.

## WE ARE GIVING BACK AND WE INVITE YOU TO DO THE SAME

We have selected a children's home that is in desperate need of any help they can get. We would like to invite our clients, who feel they would like to, to assist us in any way possible. You are welcome to deposit a cash donation and food items are always greatly appreciated. For cash deposits please use the information below and ensure that the reference is **CHARITY**. For any other donations please contact Marlene (082 370 5433 // [marlene@pacb.co.za](mailto:marlene@pacb.co.za)). The children's home will appreciate anything we can afford to donate.

**THANK YOU SO MUCH**
