"To appreciate the beauty of a snowflake it is necessary to stand out in the cold."

~ ARISTOTLE

5 Steps to Boost Your Immune System This Winter.

Because we care about you!

- 1 Get Fit** *get fit this winter*
Exercise helps to manage weight, strengthen bones and build muscle to help support a healthy immune system.
- 2 Eat Healthy** *eat your way to good health*
A diet that is relatively low in fat, high in fiber and includes plenty of fresh fruit and vegetables helps your immune function to thrive!
- 3 Go Outside** *get some sunlight everyday*
The vitamin D that your body manufactures when the sun hits your skin is key to a healthy immune system.
- 4 Get Sleep** *get a good night's sleep*
Getting enough sleep helps keep your immune function strong to lock onto and eliminate any viral infections. Rest is best!
- 5 Drink Water** *Drink hydrogen water from a water ionizer*
Hydrogen water from a Tyent Water Ionizer is chock-full of natural antioxidants and essential minerals your body needs to shore up your immune system!

Solar

Our Solar division is officially up and running and we have been quoting on a variety of projects in several provinces. We are also in the preliminary phase of the first PacB Solar Project and cannot wait to expand further in this field. Please feel free to chat to Marlene regarding all your commercial solar projects!
